

## SHIFT INTO TURBO

Distractions all around me  
Problems I must face  
Troublesome things surround me  
So I must strive to win the race

I must learn, through practice, to be all  
The good things I can be  
All I need is turbo  
To ensure my victory

So I'm shifting, into turbo gear  
there's nothing that can stop me  
For I have no fear  
The pedal's to the metal  
And I know I'll persevere  
As soon as I shift into turbo gear

The fog is getting thicker  
And I'm running low on gas  
Need energy to concentrate  
So I do not crash

Life's a dark and winding tunnel  
At end my goals will be  
All I need is a turbo charge  
Of light so I can see

So I'm shifting, into turbo gear  
There's nothing that can stop me  
For I have no fear  
The pedal's to the metal  
And I know I'll persevere  
As soon as I shift into turbo gear

I'm shifting, into turbo gear  
There's nothing that can stop me  
For I have no fear  
The pedal's to the metal  
And I know I'll persevere  
As soon as I shift into turbo gear

I'm shifting into turbo gear  
There's nothing that can stop me  
If steadily I steer  
The pedal's to the metal  
And with a little help from my peers

Together we'll shift into turbo  
Together we'll shift into turbo  
Together we'll shift into turbo gear
